

DYLAN JOHNSON RESTREPO

New York City | 305-799-4880 | ddj33@cornell.edu | linkedin.com/in/dylan-johnson-restrepo-43b217298

U.S. & U.K. Dual Citizen | Bilingual English & Spanish

TECHNICAL SKILLS

Python, SQL, Flask, React, Scikit-learn, Pandas | Applied ML, NLP, Causal Inference, Agentic AI, LLM APIs | Agent-based Simulation, Risk Modeling, Statistical Tail Analysis | Bloomberg Terminal, Data Visualization.

EDUCATION

Cornell Tech (Cornell University) — New York, NY

Expected May 2027

M.S. in Applied Information Science — Connective Media. Coursework: Applied ML, Algorithms, HCI, AI Accessibility Design.

Brandeis University — Waltham, MA

May 2025

B.A. in International & Global Studies, Cum Laude, with Honors. Dean's List (GPA > 3.5/4.0). Concentration: Economics. Leader, Investment-AI Club.

Certificates: Using Databases with Python (Michigan/Coursera); Mathematics for Machine Learning: Linear Algebra (Imperial College London/Coursera).

PROFESSIONAL EXPERIENCE

d-AI-ta LLC — Technical Lead (AI Adoption Consultancy)

Summer 2025 – Present

Remote, part-time

- Co-developed an AI tipping-point analysis tool flagging drift toward unreliable LLM outputs in legal, financial, healthcare, and security domains.
- Co-authored peer-reviewed AI research on transformer interpretability, output reliability, and chatbot safety; co-presented invited talks at UK AI Conference (London 2025), 5th Int. Conf. on AI & ML (London 2025), and AI/Computing Conference (London 2026).

Moody's — Research Intern (Senior Director's team)

Summer 2024

Washington, D.C.

- Built Python and NetLogo simulations modeling compound disaster-risk scenarios; co-authored a peer-reviewed paper on statistical modeling of extreme-event onset and severity.
- Contributed risk-modeling components and interactive dashboards for event-based disruption analysis.

World Bank — Climate Research Assistant

Summer 2024

Washington, D.C.

- Supported data visualization, analysis, and analytical reports for climate adaptation and sustainable-development initiatives.

IKALON Wealth Management — Client Liaison & Financial Analyst Intern

Summer 2023

Bogotá, Colombia

- Delivered bilingual (English/Spanish) financial analyses for individual clients; built Python tools for performance tracking and investment visualization.

Dynamic Online Networks Lab, George Washington University — Research Assistant

Summer 2022

Remote

- Developed agent-based simulations and ML models for financial tail-risk analysis; refined power-law exponent estimation for extreme-event magnitudes, improving fit on heavy-tailed loss distributions.

SELECTED PUBLICATIONS

Co-author on peer-reviewed publications and conference proceedings; selected titles below.

- When AI Output Tips to Bad but Nobody Notices: Legal Implications of AI's Mistakes*, Springer Lecture Notes (2026, in press)
- Hidden Good-to-Bad Tipping in ChatGPT-like AI*, AI, Computer Science & Robotics Technology (2026)
- Safety in ChatGPT-like Chatbots across Health, Finance, Law, Security and Defense Settings*, Journal of Artificial Intelligence & Autonomous Intelligence (2026)
- Basic Attention Head as a Building Block Toward Understanding Transformer-Based Generative AI*, Advances in Artificial Intelligence & Machine Learning (2025)

SELECTED LEADERSHIP

- World Health Organization — Disinformation Conference: co-organizer and speaker (age 17), presenting to 200+ international experts on emerging misinformation networks.
