DYLAN JOHNSON RESTREPO

New York, NY | 305-799-4880 | dylandjrestrepo@gmail.com | LinkedIn | Portfolio

AI ENGINEER • FULL-STACK AI SYSTEMS • PRODUCT ENGINEERING

U.S. & U.K. Dual Citizen • Bilingual English & Spanish

PROFESSIONAL EXPERIENCE

MKRO | *AI Engineer + Technical Project Manager* **Jun 2026 - Aug 2026**

New York, NY

- Architected a production operations platform across Airtable, AfterShip, Discord, and Seamless.ai, automating order workflows, shipment synchronization, CRM actions, and real-time alerts.
- Engineered JavaScript/Python services, REST API integrations, and webhook pipelines supporting 98 orders and reliable intelligence across 29 active shipments.
- Built an LLM-powered sales intelligence system for 296 companies, automating enrichment, ecommerce detection, lead scoring, decision-maker discovery, and personalized outreach generation.
- Partnered with founders to convert ambiguous operating needs into tested, deployed software and repeatable workflows adopted by non-technical users.

d-AI-ta LLC | *Technical Lead, AI Adoption Consultancy* **Summer 2025 - Present**

Remote, Part-time

- Engineered client-facing AI systems for LLM reliability, transformer interpretability, and reputation-risk analysis using RAG and proprietary data sources.
- Developed evaluation frameworks for model failure and output reliability, translating technical findings into deployable tools and client recommendations.

Moody's | *Research Intern, Senior Director's Team* **Summer 2024**

Washington, DC

- Developed Python and NetLogo simulations for compound disaster-risk scenarios and interactive dashboards for event-driven disruption analysis.
- Modeled extreme-event onset and severity using statistical methods to strengthen AI-enabled risk analytics and scenario evaluation.

World Bank | *Climate Research Assistant* **Summer 2024**

Washington, DC

- Built quantitative analyses and data visualizations for climate-adaptation and sustainable-development initiatives.

IKALON Wealth Management | *Client Liaison & Financial Analyst Intern* **Summer 2023**

Bogota, Colombia

- Automated investment-performance tracking and visualization with Python while delivering bilingual client-facing financial analysis.

SELECTED AI PROJECTS

AI Agent Hub | *Next.js, React, TypeScript, Ollama, Local LLMs*
Built a multi-agent AI operating system orchestrating Claude, Codex, Ollama, and local LLM workflows through a dashboard for diagnostics, prompt routing, workspace management, projects, and tasks.

AI Sales Intelligence Platform | *LLMs, REST APIs, Airtable, Seamless.ai, Webhooks*
Designed an event-driven CRM platform automating company enrichment, lead qualification, decision-maker discovery, scoring, and personalized outreach generation.

RiskNet Reputation Risk Engine | *RAG, NLP, Proprietary Data*
Engineered a RAG-based risk intelligence system combining wiki data with a proprietary database spanning 30+ social platforms to surface evidence-backed reputation signals.

EDUCATION

Cornell Tech, Cornell University | *Dual MEng in Computer Engineering + Applied Information Sciences* **Expected May 2027**

New York, NY

Coursework: Applied Machine Learning, Algorithms, Machine Learning for Health, Human-Robot Interaction, Accessibility, VR/AR.

Brandeis University | *B.A., Global Studies and Economics, Cum Laude with Honors* **May 2025**

Waltham, MA

TECHNICAL SKILLS

Languages: Python • SQL • JavaScript • TypeScript
AI: Agentic AI • LLM Applications • RAG • Prompt Engineering • OpenAI APIs • NLP • Scikit-learn • Pandas
Frameworks: React • Next.js • Flask
Infrastructure: REST APIs • Webhooks • Airtable • Git • Ollama • Discord API • AfterShip API • Seamless.ai
